📍 Di An City, Binh Duong, Vietnam

OBJECTIVE

I am a Full Stack Developer with over 6 years of experience in web development. I am passionate about creating modern, efficient, and user-friendly web applications.

As a dedicated developer, I constantly strive to enhance my skills and contribute value to the company. Each project is an opportunity to demonstrate creativity, problem-solving, and teamwork. I believe that personal growth is linked to collective success, so I always aim to build an efficient and creative work environment. Here are my main career goals:

- Become a Technical Lead and mentor young developers
- Master advanced technologies and contribute to open-source projects
- Build innovative solutions that create positive impact

EDUCATION

Tran Dai Nghia University   2014 - 2019

Major: Information Technology

GPA: 2.5/4

WORK EXPERIENCE
